August 24, 2010

Dear Commissioner:

In response to the First Office Action after RCE filing of June 22<sup>nd</sup>, 2010 Applicant filed a response on July 28<sup>th</sup> in accordance with the discussions during a previous personal interview. However, after filing Applicant reconsidered the amendment to not truly cover the invention. Thus, a supplemental response was filed. After this response was filed the Examiner phoned counsel and discussed the submissions. Counsel contacted the Applicant and now, in an effort to advance prosecution and to work towards allowance submits a second supplemental response that hereby replaces both the first and second submissions. This response and amendment limits the claims and more clearly defines the invention over the cited references. Applicant requests that the Examiner please disregard the two previous submissions and reconsider the application in light of the following amendments and remarks. Applicant believes that no petition to extend the period for response is necessary, however, should there be any deficiencies or need for further extension applicant hereby petitions for any necessary extension and authorizes the Director to charge applicant's charge account 50-2069 and to credit same account for any overpayments.
